BENEFITS

OAKIO COMMERCIAL

Elashield Decking PERFECT FOR

POOLS & MARINAS

Elashield stands for “Elastic Shield,” emphasizing its elastic surface. It’s the 3rd generation of composite decking.

Key Features:

Added Slip Resistance: The finishing coat of Elashield decking is elasticated creating a super slip-resistant surface, making this ideal for pools and marinas.

Thicker Cap Protection: The cap layer is up to 2mm thick.

Soft and Elastic Surface: Provides a safe and comfortable environment.

Matshield Decking PERFECT FOR

HIGH TRAFFIC AREAS

Matshield Decking:

Matshield introduces a matte surface for outdoor decking.

Notably, it’s also fire-resistant—a standout feature.

Both Elashield and Matshield offer a winning combination of style, durability, and practicality for your outdoor spaces!
